**Comment:** The very important wildlife on this natural woodland area does not appear to have been considered at all. Surely this land should be a conservation area, not a development for dwellings. There are plenty of wide open spaces left in Surrey for that. Consider the people who have chosen to live in this green and pleasant area and the impact it will have on their lives :

peace and privacy removed, the natural beauty taken away, traffic noise of all kinds impacting on their everyday lives if this development is approved. Also

are the developers going to find new homes for all the wildlife living there?

Surely laws protecting our wildlife have been taken into consideration and appropriate advice applied for. Legal advice is the essence.

If this has not been applied for, why not and should be!
