Comment: I object to this application on the basis that it will cause too much damage to flora and fauna at a time we should be preserving it.

Firstly to the developed woodland already on the site of the development that would be lost and more specifically damage that access of high vehicles such as refuse would cause to the trees surrounding the site.

I also feel that the damage caused to the root network of all the trees and bushes on the boundary of the development would be catastrophic for both flora and fauna around the boundaries.
