Comment: After review of the design and appearance I strongly object to the plans. It will be far too dense for the space proposed, will be overcrowded and impact many of the surrounding neighbours privacy.

It will have a huge impact on the local wildlife, not to mention the magnificent trees that are currently in place and have been for many many years.

The increased traffic generated by this development will only cause more problems during school pick and drop off hours, which obviously increases the danger for the many children travelling to and from school. Not to mention the increased pollution impacting the children's health.

I strongly object to this development.
