Comment: I think this is a disaster waiting to happen. This section of Claygate Lane is a 'No Go' area at the best of times, Narrow road, parked cars, school buses, Blood Donor Lorry and Funerals ,Weddings and Christenings at the Church, parents from two school collecting children with pushchairs and dogs are all over the place and often running in the road. I cant think of a worse place to put another road off of this complete with more yellow lines and extra traffic. Temporary traffic lights to hook up utilities , delivery lorries having to do 5 point turns to get onto proposed site could easily run over a pedestrian or damage a parked car.

With the amount of rain we had this season and the marshy ground will cause yet more flooding. if the existing trees and open space where the excess water from the ByPass amalgamates is covered in concrete and tarmac.

This area is needed to remain a nature refuge for wildlife and drainage that the existing trees do successfully.
