**Comment:** I am writing in support of the application for an irrigation reservoir at Burhill. The club has provided first-class golfing facilities in Elmbridge for over a century, but climate change in recent years has meant that the courses have suffered from summer heat & drought. The additional reservoir will make a big difference in maintaining the quality of the courses, and as water will be drawn from the Mole in our ever-wetter winters, there will be little or no impact on the local water table.
