Comment: Dear Sir,

I would like to write and inform that council that I fully support this planning application.

This is an important addition and I believe it will be an essential aid to capture excess river water from the river Mole (that frequently floods) that would otherwise be lost, as well as potentially cause problems downstream if not collected.

This collected water will be an important water source for summer irrigation, which will also have the benefit of reducing the strain on domestic drinking water supplies as well as providing benefits of additional open water for wildlife and the improvement of biodiversity.
