**Comment:** The revised planning application remains too high, wide and bulky not in-keeping with the Oxshott village view/scene. It is a very busy road and this building will contribute to a loss of space, privacy with neighbours and sense of space in the High Street - which is lacking already and is very narrow already - dangerously so in parts. There are virtually no changes from the original planning application and I cannot see any reason why this application should be approved based on the original breaches of the planning application. Oxshott High Street would benefit from redevelopment to smarten it up and give more services to the community as a whole - but certainly not more crammed-in residential development which will ruin the essence of Oxshott village.
