Comment: The amended planning application details improvement to the sight lines for vehicles leaving and entering Anyards Road and Copse Road but still takes no real account of parked vehicles in either of these Roads, in particular, Copse Road where vehicular movement is at its highest. It will be increased due to traffic from the site.

Pedestrian movement is high, early morning with parents taking children to and from school.

I also note that SCC Flood Risk, Planning and Consenting Team have currently objected to this application. What progress has been made with this important issue?

There is mention at all about the construction period and how this will exacerbate, parking, noise, dust and other issues affecting residents in Anyards Road, Copse Road and beyond.
