Comment: The changes make no difference to the previous application that provides an enhancement to the centre of Oxshott. The current building is a mess and not really in keeping with the area.

The one aspect of the plans that is of concern would be the limited amount of parking in the application and an increase in parking provision would be beneficial.

I would note with concern that there is a high proportion of objection from the same addresses or from outside of the area. This development crucially will improve the services within Oxshott village
