Comment type: You object to the planning application

Date of comment: 28 May 2024

Comment: We still strongly object to this development and find it very hard to believe that the council is still engaging with the developers given the number of planning issues evident and strength of feeling from every single resident living in close proximity, whose outlook and security will be materially harmed.

It is clear this is simply not viable, will destroy boundary trees including our own (whose roots lay in the proposed site), damage the TPO trees and wipe out all the numerous local habitats for wildlife. It is also in a road that cannot take any more traffic impacts and safety concerns for the 2000+ children attending the schools directly opposite!

The majority of previous objections are not being addressed, including boundary treatments, noise and light impacts etc.

Please put a stop to this once and for all.
