We object to this development.

There are far too many houses on such a small, narrow plot of land.

The amount of new houses means there will be a big increase in noise and light disturbance with the new street lighting. Our privacy will be greatly affected, as we will now be overlooked with this proposed housing development.

We feel very concerned about our property being vulnerable to intruders having easy access into our back garden, and this includes my other neighbours in Cumberland Drive, and also those in Claygate Lane. The natural woodland acts as a deterrent to intruders.

The fast becoming over development of Hinchley wood is not in keeping with the area. Hinchley Wood is losing its original character. It's also not what people who already live here want at all.

We don't want anymore houses built on our gardens.
