**Comment:** The design and appearance I strongly object to the plans. It will be far too dense for the space proposed, will be overcrowded and impact many of the surrounding neighbours privacy. The impact will be huge on the local wildlife, not to mention the magnificent trees that are currently in place and have been for many many years.

Traffic will be greatly increased by this development will only cause more problems during school pick and drop off hours, which obviously increases the danger for the many children travelling to and from school. Not to mention the increased pollution impacting the children's health.

I firmly object to this development.
