Good Morning,

Yes, I Missed this. As they have confirmed that the access meets all the requirements including being 10m from the stopping point of the vehicle I am happy.

Thanks

Matt

Hi Matt,

In relation to this site, after the initial consultation response from JWS the applicant submitted a transport technical note which was attached to the re-consultation and which I have re-attached to this email. The agent considers that the technical note may not have been reviewed prior to the second (may) consultation response. Please can you confirm whether you still have concerns over the proposal or if the technical note satisfies your queries.

Please let me know if you have any further queries.

Kind regards,

Clare
